## DETAILED ACTION

### *Information Disclosure Statement*

The information referred to in Applicant's information disclosure statement has been considered with the exception of the two U.S. patent documents.

The information disclosure statement filed on October 19, 2005 does not fully comply with the requirements of 37 CFR 1.98(b) because: Each of the U.S. patent documents has an incorrect patent number and incorrect inventor name. Since the submission appears to be *bona fide*, applicant is given **ONE (1) MONTH** from the date of this notice to supply the above mentioned omissions or corrections in the information disclosure statement. **NO EXTENSION OF THIS TIME LIMIT MAY BE GRANTED UNDER EITHER 37 CFR 1.136(a) OR (b).** Failure to timely comply with this notice will result in the above mentioned information disclosure statement being placed in the application file with the noncomplying information **not** being considered. See 37 CFR 1.97(i).

### *Specification*

The disclosure is objected to because of the following informality: Line 16 on page 4 is grammatically vague. Note the recitation "for slow-downing".

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Line 9 of claim 1 is grammatically vague. It is suggested that "a" be inserted after "of".

Line 16 of claim 1 is grammatically vague. Note the recitation "for slow-downing the back support".

Claim 2 recites the limitation "the position where the knob contacts" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claim 2 recites the limitation "the state that the back support has been unfolded" in lines 9 to 10. There is insufficient antecedent basis for this limitation in the claim.

Line 5 of claim 3 is grammatically vague. Note the recitation "and whose one end contact the knob".

Claims 4-9 are indefinite at least since each depends from an indefinite claim.

Claim 10 recites the limitation "the outer circumferential surface" in lines 5 to 6. There is insufficient antecedent basis for this limitation in the claim.

Claim 10 recites the limitation "the inner circumferential surface" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Line 11 of claim 10 is grammatically vague. Note the recitation "an oil which is filled".

### ***Allowable Subject Matter***

Claims 2-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lanuzzi et al (4765679) shows a concurrently adjustable backrest and seat bottom combination. Included is a telescoping adjustment member.
